### Description

Includes 15 different sizes.

Starting at 1" (25.4 mm), the blocks increase in size by ¼" all the way to 4½".

- Two (2) Nine Patch blocks are constructed from each pair of units (one light and one dark) and can be made in a single hooping session.
- You can literally create dozens of these units in minutes by copying and pasting multiple units into a larger hoop.
- Blocks can be used alone or combined into traditional blocks with a ¼" seam allowance.
- Hundreds of quilt blocks use Nine Patch blocks as one of several components in the completed block design.
- Nine Patch blocks used as a unit in larger Nine Patch or Four Patch blocks are amazing.
- Pre-making these quilting block components saves time and makes many complex blocks easy.
- The entire EZ Quilt Blocks group is designed to make piecing complex blocks from 1" to 9" a snap. Combine with additional components for even larger blocks.
- Quilting Block Components are appropriate for use in quilt blocks, borders, sashing and can be used alone when smaller blocks are desired.
- The size range offered in Quilting Block Components provides a wide range of options for using very small to very large embroidery hoops.

### Includes:

- Machine instructions for 15 sizes
- Complete step by step instructions with photos of every step
